# ECLIPSES FOR 1802.

**T**HERE will be four Eclipses this year; two of the SUN, and two of the MOON, as follows, viz.

I. The first will be of the SUN, March 4th, oh. 11m. in the morning; invisible to all north of the Equator; but visible and total in the *Great Southern Ocean*, in long.  $174^{\circ}$  East of *London*, and lat.  $58^{\circ}$  South. Moon's lat.  $42'$  South.

II. The second will be a visible Eclipse of the MOON, March 19th, and by calculation as follows:

	H.	M.	
Beginning of Eclipse	5	6	} Apparent time, morning.
Middle - - -	6	22	
End of Eclipse - -	7	30	
Whole duration - -	2	33	

Digits eclipsed,  $5^{\circ} 16'$  on the Moon's North Limb.

III. The third will be an Eclipse of the SUN, August 28th, 2h. 16m. in the morning; invisible to the inhabitants of the *United States*.

IV. The fourth and last will be an Eclipse of the MOON, September 11th, part of which only will be visible.

	H.	M.	
Beginning of Eclipse	4	30	} Apparent time, evening.
Middle - - -	5	55	
Moon rises - - -	6	10	
End of Eclipse - -	7	21	
Whole duration - -	2	51	

Digits eclipsed,  $9^{\circ} 12'$  on the Moon's South Limb.

\* \* There will be, this year, a Transit of MERCURY over the Sun's Disk. (or Mercury will pass over the face of the Sun) on the 9th day of November, in the morning. The ingress, or beginning, will happen before sunrise; but the egress, or end, may be seen; as the planet will be more than five hours passing over the Sun's Disk. Mercury's lat.  $1\frac{1}{2}'$  South, at the beginning, and  $3\frac{1}{4}'$  North, at the end.

N.B. Those who are desirous of viewing this curious phenomenon, and have not the advantage of instruments, may possibly discover it (if the air be clear) through a piece of smoked glass.

#### CURE FOR THE RING-WORM.

SIR PAUL JODDREL, from his skill in Botany, has made a discovery which is likely to prove of the greatest importance to the health and ease of the Europeans in India; and will tend to the extirpation of that cruel and most tormenting of all maladies, the Ring-Worm, and the remedy is as simple as it is efficacious. It consists in nothing more than a frequent embrocation, or friction of the parts where the eruption prevails, with common Mushroom Ketchup. This remedy simple as it appears, has never been known to fail in removing the Ring-Worm, Itch, or any other cutaneous eruption, after every nostrum has failed.

DIRECTIONS FOR MARINERS.

MR. WILLIAM LORD, of Stonington-Point, has erected an iron spear, about 13 feet long, with a white vane on the top, upon the Rock of Latimer, in Fisher's-Island-Sound. The deepest channel is to the northward of the rock. This gentleman has it in contemplation, if suitable encouragement should be given by gentlemen from the eastward and westward (who are owners of navigation, and are constantly passing the Sound) to erect a spear upon what is called The Tail of Watch-Hill-Reef—Another upon Katumacut-Rock, upon the same Reef—One upon Ellis'-Reef, which lies off Ram-Island, and is almost in the middle of the Sound. These rocks are seldom, any of them, out of water, and much in the way of Coasters up and down the Sound, who are unacquainted.

This Society consists of such as have actually navigated the seas near or beyond the *Cape of Good Hope*, or round *Cape-Horn*, as masters or commanders of vessels, and such as have been factors, or supercargoes of vessels, employed in the *East-India* trade. It was instituted for the purpose of collecting together such observations, discoveries, books, papers, charts, and valuable publications in every language, as

might tend to facilitate the navigation of the *Eastern* and *Southern Oceans*. Every member returning from sea is bound to present to the Society an abstract of the journal of his voyage, and to communicate in writing his observations of the bearings and distances of all capes and headlands; the latitude and longitude of islands, rocks and shoals; unusual occurrences; storms and accidents; with all other observations, which he may judge useful to be recorded. The Museum of the Society already exhibits a handsome collection of curiosities.

“An Act enabling Proprietors of Aqueducts to manage the same.” This Act provides such ample powers and regulations for these Associations, as to render special Acts of Incorporation unnecessary. It is therefore probable, that they have been so greatly multiplied, as to be too numerous for this publication, if they could be easily obtained.

# Corporations for Social Circulating Libraries.

1794, June 17.	Act to incorporate the Proprietors of the Social Library in Boston.
1797, Feb. 7.	Ditto, ditto, in Salem.
1793, March 3.	"An Act to enable Proprietors of Social Libraries to manage the same." By this Act such ample powers are given, as render special Acts of Incorporation unnecessary. Any " <i>SEVEN or more persons</i> ," associating conformably to this Act, are a " <i>BODY POLITIC</i> ," by the name and style of " <i>The Proprietors of the Social Library in the Town of</i> ," and have the usual powers to call Meetings, choose Officers, Moderator, Clerk, Librarian, Collector, Treasurer, &c.; to annex fines and penalties; may sue and be sued, &c. It would therefore require much time and pains to obtain a complete enumeration of them. At a random conjecture, they now probably amount to <i>one hundred</i> in Massachusetts.

## CONVENTION

Of the CONGREGATIONAL MINISTERS in the  
*Commonwealth of Massachusetts.*

THEIR Meeting is held in *Boston*, in the afternoon of the last Wednesday in *May* (or day of *Election*) annually and on the following day at noon, after transacting the usual business of Convention, a sermon is delivered in public before them, and a collection made for the charitable purpose of relieving the indigent widows of deceased Clergymen.

The Convention is a voluntary Association, embracing the Congregational Clergy of the Commonwealth, and vested with no particular authority or control over the Churches. They have opened a friendly correspondence with the General Assembly of the Presbyterian Church, in the Middle and Southern States, and with the representative bodies of the Congregational Ministers in Connecticut, New-Hampshire and Vermont, for the purposes of communicating and receiving from them whatever may tend to promote the common interest of Christianity.

A Standing Committee of Convention have been appointed for the purpose of certifying the good character and qualifications of Ministers and Candidates who may travel into other States ; and an agreement has been entered into between the Convention and the other representative bodies of Ministers in other States, mutually to communicate the names of their Committees for this purpose. Every certificate must be signed by one gentleman at least of that Committee, from whose bounds the person recommended travels.

*The Committee in MASSACHUSETTS consists of the following Gentlemen—viz.*

Rev.	Rev.
Joseph Willard, D.D. LL.D.	Jed. Morfe, D.D. <i>Charlestown</i>
President of Harvard University, <i>Cambridge</i>	Jason Haven, <i>Dedham</i>
Joseph West, D.D. <i>Stockbridge</i>	Ezra Weld, <i>Braintree</i>

John Lathrop, D.D. <i>ditto</i>	Daniel Little, <i>ditto</i>
	Alden Bradford, <i>Pownallboro'</i>

The Convention “earnestly recommend to all young gentlemen, who design to devote themselves to the work of the ministry, to spend that portion of time in the study of divinity, which improved and judicious advisers shall think necessary to qualify them for public teachers.”

The Congregational Ministers throughout the Commonwealth, with some exceptions, are associated, and have regular and stated meetings for fellowship and mutual improvement. The Convention have passed a vote, requesting the Moderator or Scribe of the several Associations throughout the Commonwealth, to forward to the Scribe of the Convention, a correct list of the members of their respective Associations, with the name of the Scribe of each, and of the Candidates licensed by them ; and have directed that the Scribe of the Convention procure the insertion of the several lists in the Massachusetts Register.

Lemuel Ayres,

By a late Law of this Commonwealth, the Pilotage of the Harbour of *Boston*, is formed into two divisions, *Outward* and *Inward*. The outward division consists of four branches; and the inward division consists of three branches: And no person so commissioned as a Pilot, or his Deputy, shall undertake to bring in or carry out of said harbour any vessel drawing *nine feet* of water, (coasters and fishing-vessels excepted) except in his own particular branch, under the penalty of *fifty dollars*.

The Governor and Council determine and fix the fees of Pilotage of the several Pilots for the harbour of Boston, from time to time, having respect to the different risk and hazard of the inward and outward divisions, and according to the circumstances of peace or war, and the seasons of the year may severally require, and the same to be specified on their respective warrants. A schedule of their fees to be hanging up in the Custom-House for the Port of *Boston* and *Charlestown*, for public inspection and information,

*Summary of the Method of Treatment, to be used  
with Persons apparently dead from Drowning, &c.*

CONVEY the person to the nearest convenient house, with his head raised : Strip and dry him as quick as possible ; clean the mouth and nostrils from froth and mud—If a child, let him be placed between two persons, naked, in a bed—If an adult, lay him on a hot blanket or bed, and, in cold weather, near a fire—in warm weather, the air should be freely admitted into the room. The body is next to be gently rubbed with warm woollen cloths, sprinkled with spirit if at hand, otherwise dry. A heated warming-pan may now lightly moved over the back, properly covered with blanket ; and the body, if of a child, is to be gently shook every few minutes : Whilst these means are using, one or two assistants are to be employed in blowing up tobacco-smoke into the fundament, with the instrument, provided for the purpose, or a tobacco pipe, if that cannot be had—a bowl filled with tobacco and properly lighted, being covered with a handkerchief, or piece of linen, so as to defend the mouth of the assistant in blowing : Bathe the breast with hot rum, and persist in the use of these means for several hours. If no signs of life should then appear, let the body be kept warm several hours longer, with hot bricks, vessels of hot water, applied to the palms of the hands, soles of the feet, for a longer or shorter time, as the circumstances of the case may be.

The too customary method of rolling on a barrel, suspending by the feet, and every other violent mode of agitation, particularly in removing the body from the water, should be most carefully avoided.

The above mentioned method of treatment is to be made use of with vigour for several hours, although no favorable circumstances should arise ; for it is a vulgar and dangerous opinion, to suppose persons are irrecoverable, because life does not soon make its appearance ; and upon this opinion, an immense number of the seemingly dead have been committed to the grave, who might have been *restored to life* by *patience* and *perseverance* in the above plan of treatment.

GENERAL INFORMATION.

The want of certificates of distilled spirits, wines or teas subject such articles to seizure, and fifty dollars fine, if such certificates are not delivered to the purchaser ; and if any cask, chest, vessel or case, containing such articles, shall be found in the possession of any person, without being marked and not being accompanied with a certificate, the same is liable to seizure.

On the sale of any cask, &c. which has been marked, the marks to be defaced in presence of some officer of inspection or customs ; and the certificate of the same to be delivered up, under penalty of one hundred dollars, with costs of suit.

Goods from foreign ports, not to be unladen but between sun-rise and sun-set, without special license, under a penalty.

of four hundred dollars on the master, and 'every other person concerned, disability from holding any office under the government of the United States for seven years, and being advertised in the newspapers, with forfeiture of the goods; and if above four hundred dollars, value of vessel and apparel.

Goods removed before gauged, and weighed, and if wines, spirits or teas, before being marked, without permission, are forfeited.

Persons giving or offering a bribe, forfeit from two hundred to two thousand dollars.—Inspectors and officers of revenue cutters may go on board, examine and search vessels, have access to the cabin, and seal packages; and after sunset secure hatches, &c.—Persons in charge of vessels, for breaking fastenings, but in presence of an officer, forfeit 200 dollars.

Officers may seize within or without their districts—persons resisting or impeding them, forfeit four hundred dollars.

The master or commander of any vessel, that shall obstruct or hinder (or be the cause thereof) any officer of the revenue, in going on board his ship or vessel, for the purpose of carrying into effect any of the revenue laws of the United States, forfeits from fifty to five hundred dollars.

Every owner of a vessel, residing within the limits of the United States, to swear to the register within *ninety days* after its being granted, or it becomes void, and the vessel and cargo pays foreign tonnage and duty.

#### *Returned-Cargo.*

*(If any articles of an outward cargo are brought back, they are to be detailed, specified by whom shipped outward, and to whom consigned inward.)*

#### *For the Information of Merchants in the District of Boston and Charlestown.*

ALL bonds given on the exportation of Merchandize, entitled to a drawback, must be put in suit as they become due, unless by prior application to the Comptroller, longer time shall be given to procure the necessary evidence that the Merchandize exported was landed in a foreign port, captured or lost.

That no document, of landing Merchandize in a foreign port, entitled to a drawback, can be received, however regular, after the bond becomes due, unless satisfactory reasons are assigned for the delay.

That the exporter of all salted provisions and pickled fish, entitled to bounty, cannot claim it, unless the evidence of the delivery of the fish and provisions, in a foreign port, is tendered before his bond, given at the time of exportation, becomes due, excepting in those cases where satisfactory reasons are assigned for the delay, or a farther time granted by the Comptroller for obtaining evidence of the landing of the provisions or fish, in a foreign port.

That no debenture can be issued on the exportation of merchandize, unless the exporter shall, within ten days after the clearance of the vessel, complete those papers which the law makes necessary to his being entitled to a drawback.

Should any Merchant in this district be conscious that he has bonds in the Custom-House, now due, given on the exportation of merchandize, or of pickled fish, or salted provisions, he will consider how interesting it is to him to have them cancelled without farther delay.

Into Pennsylvania, New-Jersey, Delaware and Maryland, from the sum given deduct 1-16th thereof.

Into South-Carolina and Georgia, to the sum given add 1-6th, and then take half of the whole.

3d. To reduce Pennsylvania, New-Jersey, Delaware and Maryland, into New-Hampshire, Massachusetts, Rhode-Island, Connecticut and Virginia, from the sum given deduct 1-5th thereof.

Into New-York and North-Carolina, to the sum given add 1-15th thereof.

Into South-Carolina and Georgia, multiply by 3 and 1-9th, and divide the product by five; or multiply by 28, and divide by 45.

4th. To reduce South-Carolina and Georgia into New-Hampshire, Massachusetts, Rhode-Island, Connecticut and Virginia, to the given sum add 2-7ths thereof.

Into Pennsylvania, New-Jersey, Delaware and Maryland, multiply the given sum by 45, and divide by 28.

Into New-York and North-Carolina, from the given sum subtract 1-7th, and double the remainder.

## NOTE ON NANTUCKET SHOALS.

IN several conversations with Coasters and others, who are well acquainted with the navigation round the Cape and Shoals, the following project has been proposed for their opinion.

*Do you think it possible to raise an Island on one of the Shoals ?* (By what means ?) By casting some thousands (or millions) of lighter loads of Stone, or by sinking HULKS or BOXES filled with stones, on that Shoal, which shall be found most eligible for the experiment, and raise such a foundation, as to build thereon an Island, sufficient to erect a CONDER or some kind of monument, which may be of use to all vessels, especially *Strangers*, in so critical a navigation. The answer was in favour of the proposition, and that called the *Great Round Shoal*, was mentioned as the most suitable. On this Shoal, there are about *four feet* of water in common tides.

If such an experiment should be made, why may we not at least expect, somewhat may be performed, equal to, if not more than that, so benevolently done by the patriotic William Lord of Stonington Point ?

Who can tell but that with Nature and Art. joined to experience, and *perseverance*, we may yet see an Island, (perhaps a Light-House) rising amidst the roaring of the SEA, and *defying its storms*, stand a friendly and faithful WATCHMAN, to warn the Mariner of his *latitude* and his *danger* ? Whether the CANAL *through the Cape* is opened or not, *this object* ought not to be relinquished for any reason, less than a natural and absolute impossibility, as it will be scarcely, if at all, the less necessary, if the Canal should be effected. When we consider what has been done in other places, particularly in sinking the *Cones* or *Piers*, at Cherbourg in France, we ought not to be easily discouraged.

Of the expense nothing is said, because I am totally incompetent to form the estimate, and if I were, it appears to me, *the amount ought not to be a consideration*. Our only concern therefore, should be concerning its practicability, and its execution. The commercial resources, and the vast and rapidly increasing ability of our country, is equal to the enterprize.

To decide fairly what degree of attention the project deserves, it should be examined and weighed by men, whose mature judgment will enable them, "*to distinguish between difficulties and impossibilities*," and whose genius, manner of

2, and experience, lead them to speculation and practice, subjects of this nature. If it is admitted that the plan is within human ability to perform, then let those who can, *strate* between HUMANITY and an inordinate *self-love*—between DUTY and the calculations of *interest*—between *Dollars* and the LIVES of MEN. *Religion* robed in the heavenly attire of CHARITY *commands it*, and, pointing to both the *Canal*, and the *Island*, says, “*This ought ye to have done, and not leave the other undone.*” D. I.

## THE Subscribers gratefully

acknowledge the assistance they have received from Gentlemen in various parts of the State, and respectfully ask a continuance of their favours. They also request that future Communications may be made as early as the 1st of September; and as in many instances the information received from Gentlemen in the *same County* has essentially varied, it is requested that no alteration may be made where there is any doubt of its accuracy.

In presenting this Number of the Register to the Public, the Publishers solicit their candor, as they have experienced disadvantages which in future they will be able to avoid. They are establishing correspondences with Gentlemen in various parts of this State, and at the seat of General Government, which they flatter themselves will enable them to make the future numbers more deserving of public patronage.
